## The Greatest Show on Earth

An exhibition to coincide with the UK's celebration of 250 years of circus.

Looking at the history and traditions of circus culture and focuses on entrepreneur and showman, Lord George Sanger, and his connections to the town of Newbury.

Beginning with small peep shows, Sanger's circus grew in popularity, even performing before Queen Victoria.

Opens 30 May 2018

## Crime and Punishment

The sleepy district of West Berkshire hasn't always been so quiet, in fact it has an interesting record of historic crime.

This exhibition looks at the nature of crime and the types of punishments that were dealt between 1500 to 1914.

Discover some of the notorious felonies that were committed in West Berkshire, including the early 19<sup>th</sup> century swing riots, the murder of a labourer by two teenagers in 1787, the notorious highwaymen working the coaching roads and the reason why the owner of Shaw House nearly caused a riot in 1907.

Runs until 15 April 2018

## Paper, People and Print

Paper making has a long history in West Berkshire, starting from small mills making paper to large factories in the 20<sup>th</sup> century like Reeds, later Fields Packaging.

Fields Packaging was more than just a factory, the people employed were a community.

This community spirit is explored through photographs which document the board making and printing processes at Fields/ Reeds Factory and the strong community of the people involved.

Runs until 20 May 2018

## Greenham - War and Peace

Celebrating Greenham Common Trust's 20<sup>th</sup> anniversary since the former RAF airbase was returned to nature.

This exhibition looks back at the unique heritage of Greenham Common, from 1199 when it was given to the Knights Hospitaller; through to tank testing during the First World War; its time as an RAF/ USAF airbase in World War 2; the Cold War missile base, the infamous peace protests of the 1980s and more recently, its transfer back to common land.

Continues for 2018

## Hoards

Bringing together, for the first time, over eleven hoards from all over West Berkshire.

A chance to see buried treasure from prehistory to the medieval period, ranging from a hoard of Bronze Age Axes, Iron Age gold coins, hundreds of Roman coins, to a collection of Charles I and James I coins.

Explore the history of each hoard, find out how and where they were found, and consider why they were hidden and never retrieved.

Continues for 2018

Recent and ongoing excavations within and around the Roman town of Silchester (Calleva Atrebatum) have shed important light on its pre-Roman origins.

These discoveries about Iron Age Calleva will be described with an illustrated talk by archaeologist Professor Michael Fulford from the Archaeology Department of the University of Reading.

## Newbury's Lost Roman Cemetery

In the middle of the 19<sup>th</sup> century, a large Roman cemetery was discovered in an area near where Sainsbury's now stands in Newbury.

The cemetery was quickly destroyed, and poorly documented.

Local historian Dr David Peacock tells the story of the discovery, and of the Roman pottery and other items which have survived.

## The Curridge Hoard

In 1998 a pot of Roman coins was discovered at Curridge, Berkshire.

Although it contained everyday Roman brasses and coppers produced from the first to the third centuries AD they bore the names and images of some of the most famous emperors in Roman history.

A fascinating talk from British Museum Curator Richard Abdy.

## West Berkshire in Roman Times

In Roman times, the River Kennet was probably a boundary between the Atrebates civitas in the south and the Dobunii civitas in the north and Thatcham was a settlement on the road from Silchester to Cirencester and Bath.

This talk by archaeologist Dr Andrew Hutt uses archaeological evidence from sites in West Berkshire to understand the lives of the local elite, and the urban and rural communities.

## The Armourer's Dilemma:

Armour and Firearms in the British Civil Wars.

By the Civil Wars of the mid-17th century gunpowder weaponry had radically affected the nature of warfare. Increasing numbers of infantry and cavalry were equipped with firearms and the use of artillery led to new designs of fortification. This talk will examine how firearms developed and how armourers responded to these challenges.

This talk ties in with the re-enactment event 'Newbury I': 23 & 24 June – please see main event listing

## From Villa to Village:

The role of voluntary archaeology in uncovering Roman, Saxon and Medieval Berkshire.

These centuries saw tumultuous changes to the pattern of local settlement and the exploitation of the landscape.

The results from a variety of sites in West Berkshire and beyond will be used to explore what we can reconstruct of these periods and to show how voluntary projects can be best placed to help uncover hidden stories.

## A Brief History of Music

600 years of music in 90 minutes

**Beginning in the Middle Ages and ending up in the 20th century (and incorporating everything in between!) this fun and fast-moving show is a whistle-stop tour of Western musical history.**

Featuring long forgotten songs and tunes (not to mention jokes!) GreenMatthews paint a vibrant and vivid picture of our musical DNA, mixing the familiar and the obscure, the raucous and the reflective and the courtly and the commonplace.

The show combines the vigour of the medieval period, the musical intricacy of the Renaissance, the grandeur of the Baroque and the pomp and bombast of Victoriana. Add to that the wit of Blackadder and 1066 And All That and the stage is set for a veritable musical feast!

'A Brief History of Music' uses tunes, songs and humour to take you on a musical journey from which you won't want to return!
