

## Make a hen

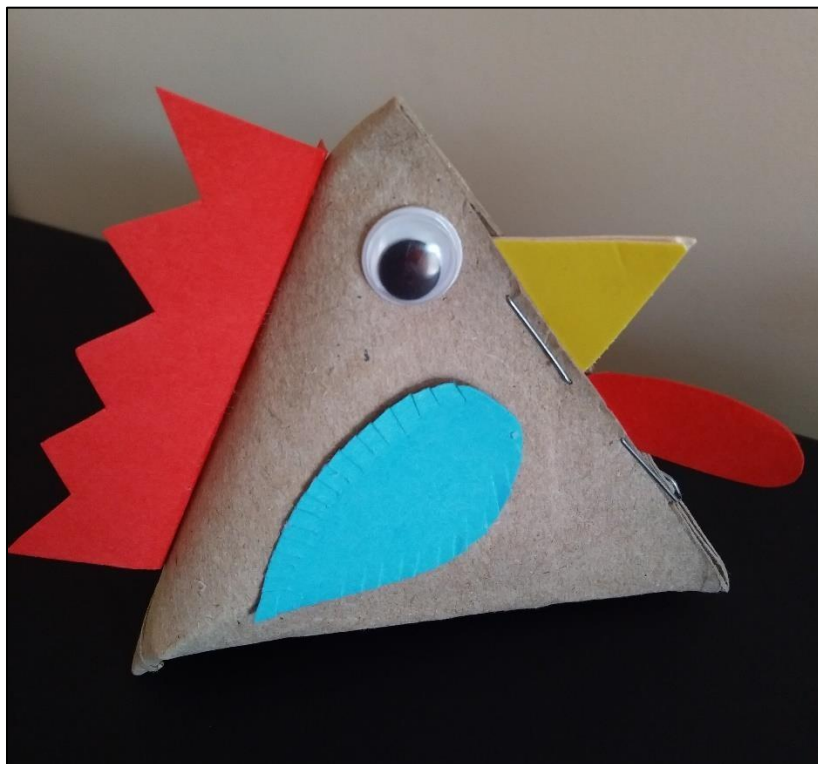

This craft was inspired by an art book explaining how to draw ducks and hens.

**You will need:** cardboard roll, scissors, pencil, stapler, scraps of thick paper or thin card, 2 wobble eyes, 2 glue dots (optional), glue stick.

### Instructions:

1. Flatten the cardboard roll. Cut off a section so you have a 'square' of roll left. It needs to be square in order to make the pyramid shape later.
2. Staple one end of the cardboard roll.
3. With the scraps of paper or card, draw and cut out a comb (zig zag), wattle (teardrop), beak (triangle), and two wings (teardrop).
4. If you wish, you can make lots of small shallow cuts around each wing to give a feathery appearance.
5. Bend the cardboard roll to form a pyramid shape.
6. Insert the beak and wattle into the open end. Staple into place and also staple closed this end.
7. With the glue stick, attach the wings and comb to the hen.
8. Using self-adhesive (or two glue dots) wobble eyes, attach to the hen.
9. Your hen is ready to peck!

**Fun facts:** A chicken has a comb on their head and wattles under their neck. The male (rooster) has a larger comb than the female (hen). The rooster is also bigger and more brightly coloured than a hen; this is so that they can show off their colourful feathers to attract the hens.
